

“A space to share, reflect, and build together.”

A meeting space for professionals, organisations and representatives from different European territories to share experiences, exchange learning and reflect on the role played by local development practitioners in addressing the new challenges facing our territories.

Through the exchange of experiences, the meeting aims to identify needs, skills and future priorities, contributing to a shared vision of the role of local development practitioners and their recognition across Europe.

The aim is for the contributions from the participating territories to help advance towards a European roadmap for local development practitioners and towards a future European network that promotes mutual learning, cooperation and the transfer of solutions.

“Two days to connect territories, share knowledge and give a voice to those working every day to drive local development”

“The Role of the Local Development Practitioner in the Territory”
